Title: Outty Dating App

User Story: As a user, I want an app that I can use to find potential matches who share the same outdoor adventure interests so that I can find a meaningful connection with someone who has much in common.

Additional Details: User features should include account creation/deletion, user sign-on, the ability to upload photos, the ability to link social media accounts, the ability to input adventure parameters and the ability to message other users in the app.

Estimated Story points: 26
